**RE: Connection Fee Payments**

To Whom It May Concern:

The Wasco Sanitary District (the "WSD") provides water and wastewater services to Wasco, Fox Mill, the Farmstead, Prairie Lakes, Fox Creek, and the retail areas of Campton Crossing and Campton Square. New users seeking to begin using the WSD's services in these locations must apply for a connection permit with the WSD.

Applicants must complete an application and pay all fees prior to a permit being issued. The applications may be picked up from the WSD and are also available online at the WSD's website. Upon completion and acceptance of the application, the WSD will issue a dated permit indicating the fees paid by the user. These fees include a water connection fee, wastewater connection fee, water meter fee, water inspection fee, and sewer inspection fee.

For a period of time, water and wastewater connection fees were paid to a third party. Going forward, all permit fees, including water and wastewater connection fees, must be paid directly to the WSD. No permits will be issued until an applicant pays all requisite fees to the WSD.

Please feel free to reach out to the WSD with any questions or concerns. We can be reached via phone or email at the contact information listed above. You can also stop by the office, which is located at 40W252 Lafox Rd, Campton Hills, Illinois 60175.

Regards,

Wasco Sanitary District
